

## 8th GEAR Quarterly Lecture

# It's time for a COherent and RElevant new benchmark model for teaching economics

Thursday 23 November 2023 | 2:00-3:30 pm  
Henley Business School, Room G14, Whiteknights Campus

### SPEAKER:

**Professor Wendy Carlin, University College London**

We are delighted to invite you to participate in the forthcoming GEAR Quarterly Lecture organised by the Group for Economic Analysis at Reading (GEAR) at the Department of Economics of the University of Reading. GEAR covers the core topics in microeconomics, macroeconomics and econometrics, as well as modern extensions, with particular application to policymaking at global, national or local level. The lectures were inaugurated in the first quarter of 2022, and are held every quarter as a hybrid event via MS Teams. Attendance is free. To register your interest, email [n.a.humphrey@reading.ac.uk](mailto:n.a.humphrey@reading.ac.uk) or [a.mihailov@reading.ac.uk](mailto:a.mihailov@reading.ac.uk)

Wendy Carlin is a Professor of Economics in the Economics Department at UCL, Research Fellow of the CEPR and external professor at the Santa Fe Institute.

Her research interests lie in macroeconomics, institutions and economic performance, the economics of transition and the evolution of economic research and education.

Her fourth macroeconomics book, subtitled 'Institutions, instability, and inequality', co-authored with David Soskice, is published this year and she is currently working on developing a new paradigm for political economy to include an expanded space for policy design beyond the state-market continuum.

Professor Carlin is a member of the Expert Advisory Panel of the Office for Budget Responsibility, leads the CORE Econ project, which is changing economics education around the world, and is co-director of the Stone Centre on Wealth Concentration, Inequality and the Economy at UCL.
